EXPERIENCE

Full Stack .NET Web Developer Eleveight| Irvine, CA | (May 2018 - Present)

Eleveight is a platform for scholarships, internships, jobs and organization case management
to connect schools, students and funding organizations.

- Developed a dynamic form builder to allow users to create a scholarship application for students. Used React.JS and JavaScript to generate a JSON data object which is stored in a SQL database and used to render a data-driven UI.
- Built a chat component to enable communication between a case worker and student. Realtime chat updates and notifications of new messages were implemented with SignalR in .NET and C#.
- Developed a cross-platform mobile app using React Native and Node.JS API endpoints which allowed users to interact with other Eleveight users through their phones.
- Attended daily SCRUM stand ups, weekly client demonstrations, strict code review processes, and technical presentations to development the team.

Shift Leader Tender Greens | Irvine, CA | (July 2017 - July 2018)

- Directed other employees through their daily routines and interacted with customers to make sure that they have a satisfactory experience.
- Acted as quality control, ensuring customer satisfaction through training employees properly and adhering to company policy.
- Resolved any customer complaints efficiently and reported results to manager
- Maintained the standards of every station with regards to people, product, and place.

Hourly Supervisor Starbucks | Irvine, CA | (Sept 2016 - Mar 2017)

- Delivered legendary customer service to all customers by acting with a customer comes first attitude and connecting with the customer
- Recognized and reinforced individual and team accomplishments by using existing organizational tools and by collaborating with store manager to find new, creative, and effective methods of recognition.
- Provided quality beverages for all customers by adhering to all recipe and presentation standards.
- Followed all cash management and cash register policies and ensured proper cash management practices are followed by shift team.

Software Tester Swipe Development | La Jolla, CA | (Jan 2014- May 2014)

- Worked with developers to review and analyze system specifications and understand the scope of the project
- Developed test scripts and evaluated the results to ensure the product meets expectations
- Wrote detailed test reports which documented bugs as well as steps to reproduce the issue
- Provided constructive and objective feedback to developers for product improvement
